\* Exxon Proscenium Arch: P1/P13. Exxon Bass Yeager P1/P20. If building exterior color varies due to local requirements, verify spec with XOM representative. Building mullions, cove base and trash enclosure may need to match the special building color.

Note that some buildings have architectural items that require alternate colors such as fascias or trim.

Do not paint any site without understanding the specific color scheme for that building style.

\*\* If existing yard lights etc. are P13 Gray, they may remain P13 at owner's discretion.
